

# Confetti Lights / Party Lights

**Step 1:** Select your blank and drill a 1 1/2" diameter hole to the desired depth.

**Step 2:** Mount a 4" x 4" waste block on a faceplate and turn a 1 1/2" diameter drive tenon. The blank should fit snugly over the drive tenon.

**Step 3:** Mount the drilled blank onto the drive tenon and advance the tailstock with revolving center up against the bottom of the blank to support it.

**Step 4:** Turn to the desired shape, then sand and finish the blank.

**Step 5:** The glass lamp can be glued in place using a silicone caulk to allow for wood movement.
